

# GREEN ENERGY FOR A CLEANER TOMORROW

# About Us

PT Adiguna Widya Arthatama is a trusted supplier and exporter of renewable energy and biomass products from Indonesia. We supply high-quality charcoal products and their derivatives for both domestic and international markets.

With strong partnerships across various production regions in Indonesia, we ensure stable supply, premium quality, and reliable export services.

## Vision

To become a leading and trusted supplier of sustainable green energy products from Indonesia to the global market.

## Mission

- Deliver international-standard charcoal and biomass products.
- Build a transparent and sustainable supply chain.
- Support Indonesia's position in the global renewable energy market.
- Provide responsive, professional, and customer-focused service.

QUALITY CHARCOAL SOLUTIONS  
FOR A CLEANER FUTURE

QUALITY CHARCOAL SOLUTIONS  
FOR A CLEANER FUTURE

# Quality & Supply Capacity

## Quality Control

We ensure consistent premium quality by implementing strict QC across all stages:

- Controlled moisture levels
- High fixed carbon
- Low and stable ash content
- Uniform size and specifications
- Clean, dust-free packaging
- Multi-stage inspection before shipping

## Production & Supply Capacity

- Large-scale production capability
- Multiple partner factories
- Guaranteed steady supply
- Weekly / Monthly container shipments
- Supports long-term contract orders

## Packaging Options

- 10 kg / 20 kg / 25 kg / 50 kg PP Bags
- Kraft Paper Bags
- Jumbo Bags (1 ton)
- Private Label / OEM available

An aerial photograph of a large cargo ship docked at a port. Several cranes are visible on the pier, and stacks of shipping containers are in the foreground. The ship is moving through the water, leaving a wake. The background shows a faint map of Europe.

QUALITY CHARCOAL SOLUTIONS  
FOR A CLEANER FUTURE

# Why Choose Us
